SUMMARY

As a fresh graduate with a background in Information Technology and hold a Bachelor of Applied Computer Science degree. I have experience in developing web-based systems. This experience has honed my problem-solving abilities, programming logic, and resilience. If you are looking for a fresh graduate with strong problem-solving capabilities, solid logical thinking, and quick adaptability to new technologies, I am ready to contribute to your team.

EXPERIENCE

PT Sinergi Informatika Semen Indonesia
Software & Data Engineer (Internship)

Nov 2025 – May 2026

- Designed and developed a Data Validation and Correction System as a solo developer, a web-based application used to validate and correct data in a datamart environment.
- Development ETL pipelines across three core modules using Python and Apache Airflow, ensuring data accuracy, consistency, and reliability.

PT Cipta Krida Bahari
Full-Stack Web Developer (Internship)

Jun – Oct 2025

- Developed the “First Aid Kit Consumption” module, enabling each branch of PT Cipta Krida Bahari to efficiently record and track daily first aid kit usage..
- Developed the “Genset Inspection” module, enabling systematic monthly inspections to ensure operational readiness and proper maintenance tracking of generators across branches.
- Developed the “First Aid Kit Inspection” module, facilitating monthly inspections to monitor usage trends, identify consumed first aid kits, and track the remaining stock in each branch.
- Developed the “Hydrant Pipe Inspection” module, supporting regular monthly inspections

PT Telkom Satelit Indonesia
Back-End Web Developer (Internship)

Jul – Nov 2024

- Developed the workshop module of the Inventory Management System. This module is used for recording and documenting the test results of production equipment.

CERTICATIONS

Badan Nasional Sertifikasi Profesi (BNSP)
Software Engineer

Sept 2025 – Sept 2028

- Identifying Software Requirements Sources
 - Classifying and Allocating Software Requirements
 - Creating Documentation Specifications for Software Requirements
 - Developing Software Requirements Specifications
 - Designing Software Structures
 - Designing User Interfaces
-

PROJECTS

KPP Pratama Bogor – Project Motion Graphic
Account Executive

Feb – May 2023

- Proactively communicate with the client to understand their needs and ensure project alignment.
 - Gather, refine, and document the client's brief.
 - Serve as the primary liaison between KPP Pratama Bogor and the development/production team.
-
