As a fresh graduate with a background in Information Technology and hold a Bachelor of Applied Computer Science degree. I have experience in developing web-based systems and data engineer. This experience has honed my problem-solving abilities, programming logic, and resilience. If you are looking for a fresh graduate with strong problem-solving capabilities, solid logical thinking, and quick adaptability to new technologies.

EDUCATIONS

Institut Pertanian Bogor (IPB University)

August 2021 – August 2025

D-IV Teknologi Rekayasa Perangkat Lunak

Sarjana Terapan Komputer (S.Tr.Kom.)

GPA: 3.20

EXPERIENCE

PT. Sinergi Informatika Semen Indonesia

November 2025 – May 2026

Software Engineer & Data Engineer (Internship)

- Designed and developing a web-based Data Validation System with two main features: validating SLA records that exceed standards by routing them to responsible teams for remarks, and enabling raw data uploads into separate raw_data databases to maintain data integrity and traceability using Laravel, React, PostgreSQL.
- Developing and maintained ETL pipelines using Python and Apache Airflow for three core business modules Accounts Payable, Cash Management, and Service Desk

PT. Cipta Krida Bahari

June – October 2025

Full-Stack Web Developer (Internship)

- Developed the “First Aid Kit Consumption” module, enabling each branch of PT Cipta Krida Bahari to efficiently record and track daily first aid kit usage used Laravel, Vuejs, MySQL.
- Developed the “Genset Inspection” module, enabling systematic monthly inspections to ensure operational readiness and proper maintenance tracking of generators across branches used Laravel, Vuejs, MySQL.
- Developed the “First Aid Kit Inspection” module, facilitating monthly inspections to monitor usage trends, identify consumed first aid kits, and track the remaining stock in each branch used Laravel, Vuejs, MySQL.
- Developed the “Hydrant Pipe Inspection” module, supporting regular monthly inspections used Laravel, Vuejs, MySQL.

PT. Telkom Satelit Indonesia

July – November 2024

Back-End Web Developer (Internship)

Developed the workshop module of the Inventory Management System. This module is used for recording and documenting the test results of production equipment used Laravel, MySQL.

PROJECTS

KPP Pratama Bogor – Project Motion Graphic

February – June 2023

Account Executive

- Proactively communicate with the client to understand their needs and ensure project alignment
- Gather, refine, and document the client's brief.
- Serve as the primary liaison between KPP Pratama Bogor and the development/production team.

CERTIFICATIONS

Badan Nasional Sertifikasi Profesi (BNSP)

September 2025 – September 2028

Software Engineer | [Certificate Software Engineer](#)

- Identifying Software Requirements Sources
- Classifying and Allocating Software Requirements
- Creating Documentation Specifications for Software Requirements
- Developed Software Requirements Specifications
- Designed Software Structures
- Designed User Interface

PT. Dibimbing Digital Indonesia

February – June 2024

Data Engineer | [Certificate Data Engineer](#)

- Python Programming
- Git
- SQL
- Data Warehouse & Extract Transform Load (ETL)
- Docker With Python Airflow
- Web Scrapping & API
- Data Governance
- Soft Skills & English for Business
